

## About Our Company

**Access Care of America** is an independently owned home health care agency licensed to provide support and directed services to individuals with intellectual and developmental disabilities (IDD). While our headquarters is in Arlington, Texas, we serve and operate throughout the state of Texas.

We provide services to IDD individuals of all ages and skill levels and are committed to assisting them in reaching their highest level of intellectual functioning. We firmly believe that they have the right to live independently in their communities, make their own choices, and play active roles in society.

## Our Mission

Every person should have the opportunity and freedom to live freely and participate in the community as valued members. Embracing this philosophy, our mission is to provide support to IDD individuals in developing their full potentials and become valued members of the community. Their needs, care, and safety are of the utmost importance to us.
